DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of claims 1-14 in the reply filed on 6/23/05 is acknowledged.

This application is in condition for allowance except for the presence of claims 15 to 21 non-elected without traverse. Accordingly, claims 15-21 have been cancelled.

Drawings

The drawings filed on 10/30/03 are informal, since the numbers and lead lines are not uniform in nature throughout the Figures. In order to avoid abandonment of this application, corrected formal drawing are now required in reply to the Office action. The correction will not be held in abeyance.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance: None of the prior art of record, alone or in combination, teaches a combination gravimetric and volumetric fluid dispensing system comprising base materials being dispensed sequentially and gravimetrically using signals from a scale to a controller and additives are dispensed volumetrically by controlling additive pumps with said controller, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Shannon et al., Rossetti and Heiss et al. pertain to various paint tinting devices having similar structure to that of the Applicant's system.
